Wiseman & Gale in 2018 is in many ways a collective of designers with a shared history. Wiseman & Gale is a select group of imaginative people, influenced by the unique elements of the American West and a belief in good design – collaborating and contributing to each other’s work in order to create Wiseman & Gale’s signature one-of-a-kind interiors. The firm’s nine seasoned designers are impacting today’s most important residential projects in Arizona and around the Country. Wiseman & Gale was established in 1965 by founders George Wiseman and Anne Gale. Their legendary partnership and successful early business greatly influenced the taste, style and creative process of the generation of designers who followed them. Over the years, the underlying principles of their approach to design have remained the firm’s foundation – commanding scale, luxury fabrics, bold colors, interesting compositions, subtle details and an emphasis on comfort and timeless beauty. Wiseman & Gale’s committed successors and current partners are Patty Burdick, Jana Parker Lee, Holly Ogden and Scott Burdick. They are leading the creative “virtuous” cycle began by the founders, with talent and experience passing from one generation to the next.
